

**Lexie Assunto** A Smart Cities Advocate / Development Coordinator.

Lexie is a New Orleans native and a distinguished leader in sustainability. With over 15 years of experience in disaster recovery developments. She has earned her pedigree as a driving force in advancing innovative solutions for innovative infrastructure across North America, the Caribbean, and Europe.

Lexie studied communications at Tulane University and has leveraged her expertise to manage over 120 agency representatives and played a pivotal role in providing guiding support to municipalities, developers, and organizations toward adopting sustainable and collaborative strategies for infrastructure improvement. Lexie's extensive experience encompasses disaster recovery, sustainable energy solutions, and intelligent infrastructure. Her leadership in these areas is underscored by her commitment to addressing such challenges. This includes energy efficiency, resilience, and federal compliance fostering long-term environmental and economic sustainability matched only by her passion for fostering collaboration among stakeholders.

Lexie has and continues to translate complex challenges into actionable strategies that builds on her a trust to partner with city leaders and organizations in the complex world of navigating the evolving demands of modern infrastructure becoming a great asset to the Komodo Gardens family who is keenly focus on safety, security and communications.
